

Did you need to get that product to market yesterday?

Speed

Relax, Tegra Medical has you covered.

We know you need it fast. Our rapid turnaround ensures you can turn prototypes into products quickly and get your medical devices to market sooner. Speed is just one of the hallmarks of Tegra Medical, along with Solutions and Service.

On the subject of speed, what could be faster than our Quick Wire and Tubing group? Call or click to order your wire or hypotubing by 1:00 PM EST today and we'll ship it for delivery tomorrow.

With a million feet in inventory, we're ready to jump when you order.

Choose from many gauges of stainless steel wire, hypotubing, nitinol wire, and PTFE - or Parylene N-coated wire. Give us a few more days and we'll custom cut, grind and finish it.

Learn more about our complete range of medical device contract manufacturing services, from DFM to packaging, at www.tegramedical.com.

Order wire & tubing online or call 508.541.4200
