

Where medical devices come to life.

Medical Device Contract Manufacturing

Who We Are

With over 20 years of medical device manufacturing experience, Tegra Medical is focused on giving customers the best quality, solutions, speed and service.

QUALITY — We offer quality without compromise, infusing stringent quality standards into every step. Our arsenal of quality tools includes ISO certifications, QSR compliance, FDA registration as a contract manufacturer, cGMP practices, SPC, lean manufacturing, Six Sigma, special validations, Black Belt-certified engineers, and tools for risk management.

SOLUTIONS — We are innovative problem-solvers who successfully tackle manufacturing challenges with novel and cost-effective solutions.

SPEED — Our rapid turnaround ensures that we can turn prototypes into products quickly and get medical devices to market sooner.

SERVICE — We are a flexible manufacturing partner that is dedicated to customer needs no matter how unique and challenging they are.

What We Do

Tegra Medical is focused exclusively on contract manufacturing services for the medical device industry. We combine a broad spectrum of full-scale production capabilities with a can-do culture. In addition, we offer our customers the GENESIS Tech Center® and Quick Wire and Tubing.

GENESIS TECH CENTER (GTC)

The GTC's 18,000 sq.ft. of state-of-the-art manufacturing space, Class 8 (100,000) clean room and dozens of skilled professionals are dedicated to providing a smooth design and manufacturing process. Tegra Medical's GTC offers fast prototyping and pilot production along with optimized design for manufacturability and assembly.

QUICK WIRE AND TUBING (QWT)

Our team can turn around requests for a wide variety of stainless steel and Nitinol wire, as well as stainless steel hypotubing, in the same day. We also provide custom finishing like cutting, grinding, and coating. Our website offers easy online ordering.

OUR MARKETS INCLUDE:

Orthopaedics

Arthroscopy
Spine/interventional spine
Trauma
Joint and dental reconstruction

Minimally-invasive surgery

Breast biopsy
Laparoscopy
Endoscopy
Soft tissue repair
Cardiovascular
Gynecology
Interventional spine

Interventional therapies

Radiology
Cardiology
Neurology
Peripheral vascular therapy
Electrophysiology

Other medical areas

Diabetes
Drug delivery
Ophthalmology
Dental

CAPABILITIES

Tegra Medical has the ability to execute on our customers' manufacturing needs with a wide array of services and a robust quality system.

Assembly, packaging & sterilization	Needles, both custom & specialty
Cleaning & finishing	Nitinol shape memory setting
CNC milling & turning	PEEK machining & injection molding
CNC Swiss machining	Precision grinding
Design for manufacturability & assembly	Prototyping
Electrical discharge machining (EDM)	Rapid response operations
Electrochemical machining & deburring	Special process validations
Finished medical devices	Stamping
Gun drilling	Wire & tube forming
Insert & injection molding	Wire & tubing inventory
Laser cutting, welding, marking
