

Has your product development been left behind?

Speed

Tegra Medical can get you on the fast track.

We know you need it fast. Our rapid turnaround ensures you can turn prototypes into products quickly and get your medical devices to market sooner. Speed is just one of the hallmarks of Tegra Medical, along with Solutions and Service.

Whether you're building spinal implants, guide wires, mandrels, drug-delivery devices or a host of other devices, Tegra Medical gets you there on time.

On the subject of speed, what could be faster than our Quick Wire and Tubing group? Call or click to order your stainless steel wire, hypotubing, nitinol wire, and PTFE -or Parylene N-coated wire by 1:00 PM EST today and we'll ship it for delivery tomorrow.

Learn more about our complete range of medical device contract manufacturing services, from DFM to packaging, at www.tegramedical.com.
