

Is there a weak link in your manufacturing process?

Whole

Working with Tegra Medical simplifies your supply chain.

Count on Tegra Medical to be your end-to-end solutions provider, from DFMA and prototyping to finished devices and assembly and packaging.

Partnering with a single vendor for your whole manufacturing process flattens your supply chain, getting your components and devices to market quickly and cost-effectively.

Tegra Medical manages the entire process of creating your product. We'll help refine your design with DFMA for efficient manufacturing, prototype and pilot-produce it, and handle full-scale production.

From the "business end" to the handle and everything in between, we'll manufacture the whole device, then finish, assemble and package.

Tegra Medical is your end-to-end solutions provider from start to finish.

Where medical devices come to life.™
